Process Invoices in Minutes, Not Days, with Invoice Automation

Conexiom's Invoice Automation replaces the manual processing of invoices with 100% data accurate, touchless automation.

Conexiom® Invoice Automation is the only purpose-built SaaS automation platform that transforms invoices into touchless transactions with 100% data accuracy.

Purpose Built, Problems Solved

In an ever-changing competitive business climate, valuable AP teams cannot spend hours upon hours each day performing non-value-add manual processes. It's inefficient, costly, and error prone.

Conexiom automates the never-ending manual-entry process AP teams endure when they receive emailed invoices from suppliers. By eliminating manual invoice entry, AP teams can:

- Reallocate resources to value-added activities
- Scale without increasing headcount
- Process invoices with greater speed and accuracy while reducing costs

Key Benefits

- Create touchless transactions to eliminate manual invoice entry
- Reallocate AP teams to value-added tasks
- Eliminate costly errors that cause missed early payment discounts
- Process 3x more invoices
- Decrease processing costs by up to 50%

Key Features

- Automatic processing of documents at scale
- Detailed analytics and reporting to show status of digital orders
- Exception-handling apps make it easy for AP clerks to resolve conflicts
- Support for integration across various backend systems
- XRef tables to improve the matching of data from incoming data to data required in transactional systems
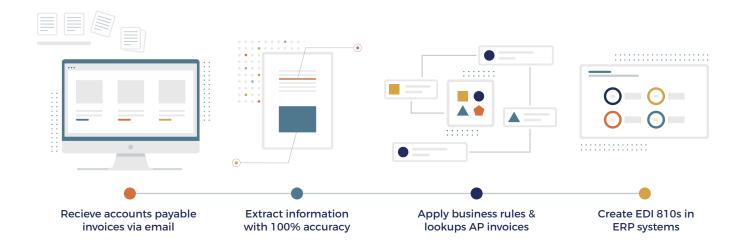

Key Outcomes

- Invoices process at scale to create digital transactions, eliminating manual invoice entry among AP teams
- Touchless invoices flow into your ERP without manual review
- Invoices are processed in under 2 minutes, so you can cash in on early payment discounts
- Costly errors and re-keying mistakes are eliminated
